"CRIME IN COLORADO - 1989"

For the third year in a row, crime statistics in Colorado showed an overall decline. In the previous two years, I expressed hopefulness, but also caution. Hopefulness, that things are at least stable, and moving in a generally positive direction, but also cautious, knowing that the decreases are small, and that we need to be ever vigilant and seek even greater reductions. I welcome this years statistics, and view them as a trend. Law enforcement in Colorado is dedicated, committed, and professionally competent. As we improve our law enforcement capabilities through resource development, technological advances, better training, and increase cooperation and communication, I hope we will see further decreases in crime in Colorado. We truly need to make Colorado the "safest" place to live. Keep up the good work and we again thank everyone involved in law enforcement for their efforts.

February, 1990

This report documents the close of a decade during which the public, law enforcement, courts, corrections and the General Assembly worked together to reduce crime and the suffering it causes in Colorado. The figures suggest we have had some success.

We are planning for all law enforcement agencies to begin using a more comprehensive incident-based crime reporting system by 1992. That will make this report more useful in subsequent years.

Most of the work required to make this report possible has been completed by the sheriffs and police departments. Their cooperative spirit and unflagging commitment to crime prevention and public safety is a credit to them all.

INTRODUCTION

Two-hundred fifty-four law enforcement agencies reported crime statistics to the Colorado Bureau of Investigation during 1989. This included 62 sheriffs' departments, 192 municipal and other local agencies, plus the Colorado State Patrol and the Division of Wildlife.

The on-line incident by incident phase of the State Crime Statistics Program included 125 of the above agencies. This direct input is supplemented by the entry of the hard copy summary reports by the CBI staff. The statistics are collected and stored in the Colorado Crime Information Center (CCIC) computer.

Agencies reporting Part II offenses to the CBI via CCIC receive monthly and annual summary reports from the CBI concerning those Part II incidents.

TRAINING ASSISTANCE

The CCIC staff provides continuing quality control, monitoring, and training assistance to the personnel of over 250 criminal justice agencies statewide. This assistance insures that accurate, complete, and properly classified crime information is identified, recorded, and reported.

Files maintained relate to crime, arrests, arrest disposition, fugitives, and stolen and/or recovered property. The CCIC staff also assures proper use by over 2,000 CCIC terminal operators of the state and national law enforcement telecommunications systems.

THE INDEX OF CRIME

The crime index consists of the seven most commonly reported offenses which compose the Part I crimes: murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft and motor vehicle theft. (Excludes "manslaughter by negligence and simple assaults"). The tabulations on the following pages present a summary picture of Part I crimes for the State of Colorado. Reference to the Uniform Crime Reporting definitions of each of these crimes should be made for a more precise understanding of what kinds of criminal activity these statistics represent.

The seven index crimes are also divided into two groups to enable further analysis. The categories and their components are:

VIOLENT CRIMES
Murder
Forcible Rape
Robbery
Aggravated Assault

PROPERTY CRIMES
Burglary
Larceny-theft
Motor Vehicle Theft

For 1989 the number of actual offenses reported and the rate of property crimes decreased while the rate of violent crimes increased. Based upon a 1989 estimated Colorado population of 3,360,219 the crime rate rose .1% while the number of reported offenses decreased by 1.4%. The chart below reflects those changes.

Summaries by Jurisdiction

The following pages summarize crime reported by type of offense, by reporting jurisdiction. If an agency name is missing, or if no reported crime is shown, it is because either no reports were received from those agencies, or they reported through their sheriff's offices.

Caution should be used when comparing one county's figures against anothers. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

Summaries by Jurisdiction

The next 32 pages reflect county-wide summaries of the value of property stolen and recovered. Each county report includes figures from all agencies in the county that made reports. The law enforcement agencies participating in the crime reporting program have total figures for their respective jurisdictions.

Caution should be used when comparing one county's figures against anothers. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.

COLORADO ARREST DATA

Submitting agencies are required to report monthly the number of arrests made for offenses committed within their jurisdictional limits.

There is no direct correlation between persons arrested, the number of offenses reported or the number of offenses cleared. Several persons could be arrested for the same offense or the arrest of one person may clear several offenses. A person is counted only once each time arrested. Therefore, if a person is arrested but wanted for several crimes within the same jurisdiction, he or she would be scored only once for the most serious crime in accordance with the hierarchy rule. The same process is applicable whether the arrestee is adult or juvenile.

Volume and Rate

Reported arrests in Colorado totaled 242,257 for Part I and Part II crimes in 1989. This represents a 2.7% increase over 1988. There were 7,210 arrests per 100,000 persons in 1989 as compared with 7,025 per 100,000 persons in 1988. Part I arrests accounted for 19.2% of the total arrests. Of those Part I offenses, Larceny-Theft comprised the greater portion with 65.8%. The greatest percentage of Part II arrests were for All Other Offenses (except traffic), 32.8%, followed by Driving Under the Influence, 19.7%. During 1989, arrests for violent crimes (Murder, Forcible Rape, Robbery and Aggravated Assault) accounted for 17.2% of all Part I arrests and 3.3% of the total arrests.

Arrests by Age

The number of persons under the age of 18 (Juveniles) arrested during 1989 increased 8.3% over 1988. Arrests of juveniles for Part I crimes increased 7.2% compared to 1988. The number of persons over the age of 18 (Adult) arrested during 1989 increased 1.4% from 1988. Arrests of adults for Part I crimes decreased compared to 1988.

Arrest by Sex

Of the 242,257 total arrests in 1989, the greatest percentage of arrests were male, 78.4%, an increase of 2.0% from 1988. Females accounted for the remaining 21.6% of the 1989 arrests.

ARRESTS REPORTED

Summaries by Jurisdiction

The following pages summarize crime reported by type of offense, by reporting jurisdiction. If an agency name is missing, or if no reported crime is shown, it is because either no reports were received from those agencies, or they reported through their sheriff's offices.

Caution should be used when comparing one county's figures against anothers. There are eleven cities in Colorado that are in two or more counties. Obviously crime may occur throughout the city limits and in all counties effected. For reporting purposes however, the agencies totals are included under only one county. Following are the cities which cross county lines; next to each city is the county within which it is counted for statistical purposes.
